Allowable Subject Matter

Claims 53 and 55-61 are allowed.

The following is an examiner's statement of reasons for allowance. The prior art of record and to the examiner's knowledge does not teach or render obvious, at least to the skilled artisan, the instant invention regarding a method of forming a DRAM as recited in independent claim 53, particularly characterized by forming first and second gate stacks with first, second, third and fourth diffusion regions, in combination with a step of extending the first diffusion region with a heavy p-type dopant and extending the fourth diffusion region, without extending the second and third diffusion regions. Claims 55-61 are dependent upon claim 53. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
